

A19697

Leader in Biomolecular Solutions for Life Science

# Progesterone Receptor Rabbit mAb

Catalog No.: A19697

Recombinant

1 Publications

## Basic Information

### Observed MW

90kDa/118kDa

### Calculated MW

99kDa

### Category

SMab Recombinant Monoclonal Antibody

### Applications

WB,ELISA

### Cross-Reactivity

Human

### CloneNo number

ARC51400

## Recommended Dilutions

**WB** 1:500 - 1:2000

**ELISA** Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.

## Contact

## Background

This gene encodes a member of the steroid receptor superfamily. The encoded protein mediates the physiological effects of progesterone, which plays a central role in reproductive events associated with the establishment and maintenance of pregnancy. This gene uses two distinct promoters and translation start sites in the first exon to produce several transcript variants, both protein coding and non-protein coding. Two of the isoforms (A and B) are identical except for an additional 165 amino acids found in the N-terminus of isoform B and mediate their own response genes and physiologic effects with little overlap.

## Immunogen Information

### Gene ID

5241

### Swiss Prot

P06401

### Immunogen

Recombinant fusion protein containing a sequence corresponding to amino acids 260-330 of human Progesterone Receptor (NP\_000917.3).

### Synonyms

PR; NR3C3; Progesterone Receptor

## Product Information

### Source

Rabbit

### Isotype

IgG

### Purification

Affinity purification

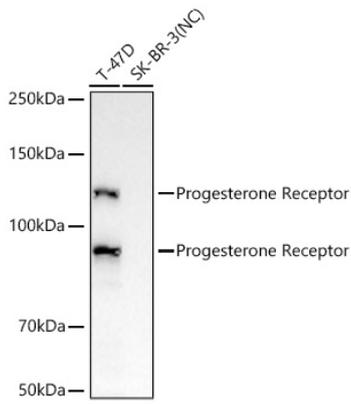

### Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.09% Sodium azide,0.05% BSA,50% glycerol,pH7.3.

## Validation Data

---

Western blot analysis of various lysates using Progesterone Receptor Rabbit mAb (A19697) at 1:1000 dilution incubated overnight at 4°C.  
Secondary antibody: HRP-conjugated Goat anti-Rabbit IgG (H+L) (AS014) at 1:10000 dilution.  
Lysates/proteins: 25 µg per lane.  
Blocking buffer: 3% nonfat dry milk in TBST.  
Detection: ECL Basic Kit (RM00020).  
Negative control (NC): SK-BR-3  
Exposure time: 45s.
