Leader in Biomolecular Solutions for Life Science

## DVE-1 Rabbit pAb

Catalog No.: A20752

### Basic Information

#### Observed MW

Refer to figures

#### Calculated MW

#### Category

Polyclonal Antibody

#### Applications

WB, ELISA

#### Cross-Reactivity

Caenorhabditis elegans

### Background

Enables chaperone binding activity and enzyme binding activity. Involved in embryo development; mitochondrial unfolded protein response; and regulation of innate immune response. Located in chromatin; cytosol; and nucleus. Part of transcription regulator complex. Is expressed in several structures, including arcade cell; intestine; midbody; nervous system; and rectum. Human ortholog(s) of this gene implicated in SATB2-associated syndrome. Orthologous to several human genes including SATB2 (SATB homeobox 2).

### Recommended Dilutions

**WB** 1:500 - 1:2000

**ELISA** Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.

### Immunogen Information

#### Gene ID

180398

#### Swiss Prot

#### Immunogen

Recombinant protein (or fragment). This information is considered to be commercially sensitive.

#### Synonyms

### Contact

[www.abclonal.com](http://www.abclonal.com)

### Product Information

#### Source

Rabbit

#### Isotype

IgG

#### Purification

Affinity purification

#### Storage

Store at -20°C. Avoid freeze / thaw cycles.

Buffer: PBS with 0.01% thimerosal, 50% glycerol, pH 7.3.
