

RM98020

Leader in Biomolecular Solutions for Life Science

Rabbit anti-Mouse IL-1 beta mAb

Catalog No.: RM98020

Basic Information

Catagory

Matched Antibody Pair

Applications

Background

The protein encoded by this gene is a member of the interleukin 1 cytokine family. This cytokine is produced by activated macrophages as a proprotein, which is proteolytically processed to its active form by caspase 1. The encoded protein plays a role in thymocyte proliferation and is involved in the inflammatory response.
