# Mouse anti-human human Dickkopf homolog-1 (Dkk-1)

## ORDERING INFORMATION

|               |                         |
|---------------|-------------------------|
| Catalog No:   | hAP-0246                |
| Size:         | 100 µg                  |
| Storage:      | < -20° C                |
| Immunogen:    | Human recombinant Dkk-1 |
| Ig Type:      | mouse IgG1              |
| Clone:        | MM0246- 3V29            |
| Applications: | WB                      |

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with **human recombinant Dkk-1**).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 200 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody was selected for its ability to detect human **Dkk-1**.

### Applications:

|    |    |     |              |
|----|----|-----|--------------|
| 1. | WB | Yes | (1:500-1000) |
|----|----|-----|--------------|

**Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only**
