## Mouse Monoclonal anti human CD200 R1 (also known as OX-2 R)

### ORDERING INFORMATION

|                      |                                   |
|----------------------|-----------------------------------|
| <b>Catalog No:</b>   | <b>hAP-0684</b>                   |
| <b>Size:</b>         | <b>100µg</b>                      |
| <b>Storage:</b>      | <b>&lt;-20°C</b>                  |
| <b>Immunogen:</b>    | <b>Recombinant human CD200 R1</b> |
| <b>Ig Type:</b>      | <b>mouse IgG2b</b>                |
| <b>Clone:</b>        | <b>MM0684-8W20</b>                |
| <b>Applications:</b> | <b>WB, FC and ICC</b>             |

**Preparation:** This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with Recombinant human CD200 R1).

**Formulation and Storage:** The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

**Reconstitution:** Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

**Specificity:** This antibody recognizes human CD200 R1 by direct ELISA and WB.

### Applications:

|    |     |     |            |
|----|-----|-----|------------|
| 1. | WB  | Yes | 1:500-1000 |
| 2. | FC  | Yes |            |
| 3. | ICC | Yes | 1:50-100   |

**Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.**
