

Mouse Monoclonal anti human Coagulation Factor III (Tissue Factor)

ORDERING INFORMATION

Catalog No: hAP-0700 Size: 100µg Storage: <-20°C

Immunogen: Recombinant hu Coagulation Factor III (TF)

Ig Type: Mouse IgG2
Clone: MM0700-21U4
Applications: WB and IP

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with Recombinant human Coagulation Factor III (TF).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500μ l sterile PBS and the final concentration is 200μ g/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human Coagulation Factor III (TF) in direct ELISAs and Western blots.

Applications:

1. WB Yes 1:500-1000

2. IP Yes

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only.
