

Mouse Monoclonal anti human Beclin-1

ORDERING INFORMATION

Catalog No:	hAP-0970
Size:	100µg
Storage:	<-20°C
Immunogen:	Recombinant human BCAP
Ig Type:	Mouse IgG2
Clone:	MM0970-11F16
Applications:	WB

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells) from a mouse immunized with recombinant human Beclin 1 (Bcl-2 interacting coiled-coil protein). Beclin-1 is also called ATG6 and is a 60 kDa member of the Beclin family of proteins.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes human BCAP in direct ELISAs and WBs. It cross reacts with mouse and rat Beclin-1 proteins in WBs.

Applications:

1.	WB	Yes	1:1000-2000
