

## Polyclonal Sheep anti Human CCL2/JE/MCP-1

### ORDERING INFORMATION

Catalog Number:	hAP-5073
Size:	50 µg
Storage:	< -20 °C
Immunogen:	E. coli-derived recombinant human CCL2/JE/MCP-1
Ig Type:	IgG
Purification:	Antigen Affinity Purified
Applications:	WB B/N

### *Preparation:*

This antibody was produced from a sheep immunized with purified human CCL2/JE/MCP-1 protein.

### *Formulation and Storage:*

The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

### *Reconstitution:*

Reconstitute the antibody with 100 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

### *Specificity:*

Detects human CCL2/JE/MCP-1 in direct ELISAs and Western blots. In direct ELISAs, approximately 80% cross-reactivity with recombinant canine MCP-1 is observed, and approximately 10% cross-reactivity with recombinant mouse MCP-1, recombinant human (rh) MCP-2, rhMCP-3, and rhEotaxin is observed.

### *Applications:*

WB	Yes	1 : 1000 - 2000
B / N	Yes	

*Optimal dilutions should be determined by each laboratory for each application.*

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!

**This product is sold for Research Use Only !**
