

Polyclonal Sheep anti Human SCF R/c-kit

ORDERING INFORMATION

Catalog Number:	hAP-5453
Size:	50 µg
Storage:	< -20 °C
Immunogen:	S. frugiperda insect ovarian cell line Sf 21-derived recombinant human SCF R/c-kit.
Ig Type:	IgG
Purification:	Antigen Affinity Purified
Applications:	WB IHC FC N/B

Preparation:

This antibody was produced from a sheep immunized with purified human SCF R/c-kit protein.

Formulation and Storage:

The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution:

Reconstitute the antibody with 100 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity:

Detects human and mouse SCF R/c-kit in direct ELISAs and Western blots. In Western blots, approximately 2% cross-reactivity with recombinant human PDGF sR alpha is observed.

Applications:

WB	Yes	1 : 1000 - 2000
IHC (Paraffin / Frozen)	Yes	1 : 50 - 100
N / B	Yes	
FC	Yes	

Optimal dilutions should be determined by each laboratory for each application.

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!
