

Polyclonal Sheep anti Mouse AS AHL

ORDERING INFORMATION

Catalog Number:	mAP-5025
Size:	50 µg
Storage:	< -20 °C
Immunogen:	Mouse myeloma cell line NS0-derived recombinant mouse AS AHL/ N-acylethanolamine-hydrolyzing Acid A
Ig Type:	IgG
Purification:	Antigen Affinity Purified
Applications:	WB IP

Preparation:

This antibody was produced from a sheep immunized with purified mouse AS AHL protein.

Formulation and Storage:

The IgG fraction of immunized serum was purified by antigen affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution:

Reconstitute the antibody with 100 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 °C for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity:

Detects mouse AS AHL/N-acylethanolamine-hydrolyzing Acid A in direct ELISAs and Western blots. In direct ELISAs, approximately 10% cross-reactivity with recombinant human (rh) AS AHL is observed and less than 5% cross-reactivity rhAS AHL-2 and recombinant mouse AS AHL-2 is observed.

Applications:

WB	Yes	1 : 1000 - 2000
IP	Yes	1 : 200

Optimal dilutions should be determined by each laboratory for each application.

The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users!
