

## Bovine Small Nuclear Ribonucleoprotein Polypeptide

**Item Number** rAP-4835

**Synonyms**

**Description** Bovine Small Nuclear Ribonucleoprotein Polypeptides purified from bovine tissues by proprietary protein-chemical techniques.

**Uniprot Accession Number**

**Amino Acid Sequence**

**Source** Bovine tissues.

**Physical Appearance and Stability** Sterile Filtered clear solution. Store at 4°C if entire vial will be used within 2-4 weeks. Store, frozen at -20°C for longer periods of time. Avoid multiple freeze-thaw cycles.

**Formulation and Purity** SNRPD is supplied in 20mM HEPES buffer pH-7.6, 250mM NaCl and 20% glycerol. Greater than 60% as determined by SDS-PAGE.

**Application** Western blot with anti-Sm positive patient sera.

**Solubility**

**Biological Activity**

**Shipping Format and Condition** Lyophilized powder at room temperature.

Optimal dilutions should be determined by each laboratory for each application. The listed dilutions are for recommendation only and the final conditions should be optimized by the ender users! This product is sold for **Research Use Only**
