

Mouse IgG2b Isotype Control PE

Catalog Number :43922-60

RUO: For Research Use Only. Not for use in diagnostic procedures.

Product Information

Clone: MPC-11

Format/Conjugate: PE

Concentration: 0.2 mg/mL

Reactivity: Mouse

Laser: Blue (488nm), Yellow/Green (532-561nm)

Peak Emission: 578nm

Peak Excitation: 496nm

Filter: 585/40

Brightness (1=dim,5=brightest): 5

Isotype: Mouse IgG2b

Formulation: Phosphate-buffered aqueous solution, ≤0.09% Sodium azide, may contain carrier protein/stabilizer, pH7.2.

Storage: Product should be kept at 2-8°C.

Applications: FC

Description

The MPC-11 monoclonal antibody is expressed by a cell line adapted from the Merwin Plasmacytoma-11, and has unknown specificity. The MPC-11 line was obtained by intraperitoneal implantation into a BALB/c Mouse of a Millipore diffusion chamber and is used as an Isotype Control for Mouse IgG2b antibodies.

Preparation & Storage

The product should be stored undiluted at 4°C. Do not freeze. The monoclonal antibody was purified utilizing affinitychromatography.

Application Notes

The antibody has been analyzed for quality through the flow cytometric analysis of the relevant cell type. It is recommended that the isotype control be used at the same concentration as the primary antibody being tested.
