

Anti-Integrin alpha 4 ITGA4 Antibody

Catalog Number: A00468

About ITGA4

The integrin alpha 4 (also known as CD49d and ITGA4) belongs to the integrin alpha chain family of proteins. Integrins are heterodimeric integral membrane proteins composed of an alpha and beta chains. Alpha4 chain associates with either beta1 or beta7 chain. It has been demonstrated that the putative ligand-binding sites of both integrin alpha4beta1 and alpha4beta7 is located on the alpha4 chain. These ligands included Madcam, VCAM, and fibronectin. Madcam is known as the principal ligand for integrin alpha4beta7. Recently it was also demonstrated that HIV-1 envelope can mimic Madcam by binding to and signaling through integrin alpha4beta7, the gut mucosal homing receptor for peripheral T cells.

Overview

Product Name	Anti-Integrin alpha 4 ITGA4 Antibody
Reactive Species	Human, Mouse, Rat
Description	Boster Bio Anti-Integrin alpha 4 ITGA4 Antibody (Catalog # A00468). Tested in ELISA, WB applications. This antibody reacts with Human, Mouse, Rat.
Application	ELISA, WB
Clonality	Polyclonal
Formulation	Integrin alpha 4 Antibody is supplied in PBS containing 0.02% sodium azide.
Storage Instructions	Integrin alpha 4 antibody can be stored at 4°C for three months and -20°C, stable for up to one year. Avoid repeated freeze-thaw cycles. Antibodies should not be exposed to prolonged high temperatures.
Host	Rabbit
Uniprot ID	P13612

Technical Details

Immunogen	Integrin alpha 4 antibody was raised against a 13 amino acid synthetic peptide from near the carboxy terminus of human Integrin alpha 4. The immunogen is located within the last 50 amino acids of Integrin alpha 4.
Predicted Reactive Species	Bovine, Pig
Cross Reactivity	At least two isoforms are known to exist. The immunogen to this antibody is outside of the Integrin alpha4 recombinant protein fragment and thus will not recognize it.
Isotype	IgG
Form	Liquid
Concentration	1 mg/mL

Purification	Integrin alpha 4 Antibody is affinity chromatography purified via peptide column.
Suggested Dilutions	Dilute the sample so that the expected range of concentrations fall within the detection range of this kit. If the expected range of concentration is unknown, a pilot test should be conducted to decide the optimal dilution ratio for your samples. Some PubMed article(s) citing the expression level of this target are as follows: Boster Bio's internal QC testing used: Integrin alpha 4 antibody can be used for the detection of Integrin alpha 4 by Western blot at 1 ug/mL. Despite its predicted molecular weight, Integrin alpha4 will often run at higher molecular weight in SDS-PAGE. Antibody validated: Western Blot in human samples. All other applications and species not yet tested. Optimal dilutions for each application should be determined by the researcher.
