

## Anti-FNTB Antibody

Catalog Number: A07620

### Overview

|                      |                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name         | Anti-FNTB Antibody                                                                                                                         |
| Reactive Species     | Human, Mouse, Rat                                                                                                                          |
| Description          | Boster Bio Anti-FNTB Antibody (Catalog# A07620). Tested in WB, ELISA applications. This antibody reacts with Human, Mouse, Rat.            |
| Application          | ELISA, WB                                                                                                                                  |
| Clonality            | Polyclonal                                                                                                                                 |
| Formulation          | PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                              |
| Storage Instructions | Store at -20°C for one year. For short-term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |
| Host                 | Rabbit                                                                                                                                     |
| Uniprot ID           | P49356                                                                                                                                     |

### Technical Details

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen                  | A peptide derived from human FNTB. Immunogen sequence location: 255 - 304                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Predicted Reactive Species | Bovine, Canine, Chicken, Primate, Sheep, Xenopus, Zebrafish                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Isotype                    | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Form                       | Liquid                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Concentration              | 0.5-1mg/ml, actual concentration vary by lot. Use suggested dilution ratio to decide dilution procedure.                                                                                                                                                                                                                                                                                                                                                                                                           |
| Purification               | The antibody was purified from rabbit antiserum by affinity-chromatography using immunogen.                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Suggested Dilutions        | <p>Dilute the sample so that the expected range of concentrations fall within the detection range of this kit.</p> <p>If the expected range of concentration is unknown, a pilot test should be conducted to decide the optimal dilution ratio for your samples.</p> <p>Some PubMed article(s) citing the expression level of this target are as follows:</p> <p>Boster Bio's internal QC testing used:</p> <p>Western Blot, 1:500 - 1:2000</p> <p>ELISA, 1:40000</p> <p>Not yet tested in other applications.</p> |
