

## Anti-ZNRF2 Antibody

Catalog Number: A11505

### Overview

|                      |                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name         | Anti-ZNRF2 Antibody                                                                                                                        |
| Reactive Species     | Human, Mouse                                                                                                                               |
| Description          | Boster Bio Anti-ZNRF2 Antibody (Catalog# A11505). Tested in IHC-P, IF, ICC, ELISA applications. This antibody reacts with Human, Mouse.    |
| Application          | ELISA, IF, IHC-P, ICC                                                                                                                      |
| Clonality            | Polyclonal                                                                                                                                 |
| Formulation          | PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                              |
| Storage Instructions | Store at -20°C for one year. For short-term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles. |
| Host                 | Rabbit                                                                                                                                     |
| Uniprot ID           | Q8NHG8                                                                                                                                     |

### Technical Details

|                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen                  | A peptide derived from human ZNRF2. Immunogen sequence location: 161-210                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Predicted Reactive Species | Bovine, Canine, Chicken, Primate, Sheep, Xenopus, Zebrafish                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Isotype                    | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Form                       | Liquid                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Concentration              | 0.5-1mg/ml, actual concentration vary by lot. Use suggested dilution ratio to decide dilution procedure.                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Purification               | The antibody was purified from rabbit antiserum by affinity-chromatography using immunogen.                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Suggested Dilutions        | <p>Dilute the sample so that the expected range of concentrations fall within the detection range of this kit.</p> <p>If the expected range of concentration is unknown, a pilot test should be conducted to decide the optimal dilution ratio for your samples.</p> <p>Some PubMed article(s) citing the expression level of this target are as follows:</p> <p>Boster Bio's internal QC testing used:</p> <p>Immunohistochemistry, 1:100 - 1:300</p> <p>Immunofluorescence, 1:200 - 1:1000</p> <p>ELISA, 1:20000</p> <p>Not yet tested in other applications.</p> |
