

## Anti-FGF1 Rabbit Monoclonal Antibody

Catalog Number: M00206-1

### About FGF1

C3 plays a central role in the activation of the complement system. Its processing by C3 convertase is the central reaction in both classical and alternative complement pathways. After activation C3b can bind covalently, via its reactive thioester, to cell surface carbohydrates or immune aggregates.

### Overview

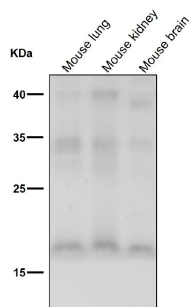

|                      |                                                                                                                                                  |

| Product Name         | Anti-FGF1 Rabbit Monoclonal Antibody                                                                                                             |
| Reactive Species     | Human, Mouse, Rat                                                                                                                                |
| Description          | Boster Bio Anti-FGF1 Rabbit Monoclonal Antibody catalog # M00206-1. Tested in WB, IHC applications. This antibody reacts with Human, Mouse, Rat. |
| Application          | IHC, WB                                                                                                                                          |
| Clonality            | Monoclonal 18F58                                                                                                                                 |
| Formulation          | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                              |
| Storage Instructions | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles.       |
| Host                 | Rabbit                                                                                                                                           |
| Uniprot ID           | P05230                                                                                                                                           |

### Technical Details

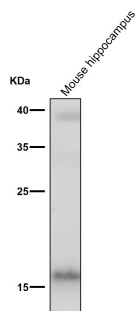

|                     |                                                                                                                                                                                                                                                                                                                                                                                          |
