

## Anti-Lrp2 / Megalin Rabbit Monoclonal Antibody

Catalog Number: M02463

### About LRP2

F-actin cross-linking protein which is thought to anchor actin to a variety of intracellular structures. This is a bundling protein. Probably involved in vesicular trafficking via its association with the CART complex. The CART complex is necessary for efficient transferrin receptor recycling but not for EGFR degradation.

### Overview

|                      |                                                                                                                                                    |

| Product Name         | Anti-Lrp2 / Megalin Rabbit Monoclonal Antibody                                                                                                     |
| Reactive Species     | Human, Mouse, Rat                                                                                                                                  |
| Description          | Boster Bio Anti-Lrp2 / Megalin Rabbit Monoclonal Antibody catalog # M02463. Tested in WB application. This antibody reacts with Human, Mouse, Rat. |
| Application          | WB                                                                                                                                                 |
| Clonality            | Monoclonal EE-12                                                                                                                                   |
| Formulation          | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                                |
| Storage Instructions | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles.         |
| Host                 | Rabbit                                                                                                                                             |
| Uniprot ID           | P98164                                                                                                                                             |

### Technical Details

|                     |                                                                                                                                                                                                                                                                                                                                                                                          |
