

## Anti-DYNLL1/Pin Rabbit Monoclonal Antibody

Catalog Number: M03454

### About DYNLL1

Receptor for bradykinin. It is associated with G proteins that activate a phosphatidylinositol-calcium second messenger system.

### Overview

|                      |                                                                                                                                                                  |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name         | Anti-DYNLL1/Pin Rabbit Monoclonal Antibody                                                                                                                       |
| Reactive Species     | Human, Mouse, Rat                                                                                                                                                |
| Description          | Boster Bio Anti-DYNLL1/Pin Rabbit Monoclonal Antibody catalog # M03454. Tested in WB, IHC, ICC/IF, IP applications. This antibody reacts with Human, Mouse, Rat. |
| Application          | IP, IF, IHC, ICC, WB                                                                                                                                             |
| Clonality            | Monoclonal EDA-4                                                                                                                                                 |
| Formulation          | Rabbit IgG in phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol, 0.4-0.5mg/ml BSA.                                              |
| Storage Instructions | Store at -20°C for one year. For short term storage and frequent use, store at 4°C for up to one month. Avoid repeated freeze-thaw cycles.                       |
| Host                 | Rabbit                                                                                                                                                           |
| Uniprot ID           | P63167                                                                                                                                                           |

### Technical Details

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen           | A synthesized peptide derived from human DYNLL1                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Isotype             | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Form                | Liquid                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Concentration       | Actual concentration vary by lot. Use suggested dilution ratio to decide dilution procedure.                                                                                                                                                                                                                                                                                                                                                                                      |
| Purification        | Affinity-chromatography                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Suggested Dilutions | <p>Dilute the sample so that the expected range of concentrations fall within the detection range of this kit.</p> <p>If the expected range of concentration is unknown, a pilot test should be conducted to decide the optimal dilution ratio for your samples.</p> <p>Some PubMed article(s) citing the expression level of this target are as follows:</p> <p>Boster Bio's internal QC testing used:</p> <p>WB 1:500-1:2000</p> <p>IHC 1:50-1:200</p> <p>ICC/IF 1:50-1:200</p> |
