

## Human STX11 Recombinant Protein

Catalog Number: PROTO75558

### Overview

|              |                                                                                                                                   |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Product Name | Human STX11 Recombinant Protein                                                                                                   |
| Description  | Human STX11 Recombinant Protein expressed in E. coli with His-tag. Sequence domain: 1-287aa. Application(s): SDS-PAGE, Denatured. |
| Size         | Starting from 20ug                                                                                                                |
| Tag          | His-Tag                                                                                                                           |
| Form         | Liquid                                                                                                                            |
| Source       | E. coli                                                                                                                           |
| Formulation  | 20mM Tris-HCl buffer (pH 8.0) containing 10% glycerol, 0.4M urea                                                                  |

### Concentration

1mg/ml (determined by Bradford assay)

### Storage

Can be stored at 2°C to 8°C for 1 week. For long-term storage, aliquot and store at -20°C to -80°C. Avoid repeated freeze-thaw cycles.

### Purity

> 95% by SDS-PAGE

### Amino Acid Sequence
