

## Human UFM1 Recombinant Protein

Catalog Number: PROTP61960

### Overview

|              |                                                                                                                      |
|--------------|----------------------------------------------------------------------------------------------------------------------|
| Product Name | Human UFM1 Recombinant Protein                                                                                       |
| Description  | Human UFM1 Recombinant Protein expressed in E. coli with His-tag. Sequence domain: 1-83aa. Application(s): SDS-PAGE. |
| Size         | Starting from 20ug                                                                                                   |
| Tag          | His-Tag                                                                                                              |
| Form         | Liquid                                                                                                               |
| Source       | E. coli                                                                                                              |
| Formulation  | 20mM Tris-HCl buffer (pH 8.0) containing 10% glycerol                                                                |

### Concentration

1mg/ml (determined by BCA assay)

### Storage

Can be stored at 2°C to 8°C for 1 week. For long-term storage, aliquot and store at -20°C to -80°C. Avoid repeated freeze-thaw cycles.

### Purity

> 95% by SDS-PAGE

### Amino Acid Sequence

Human, P61960, 1-83aa; MGSSHHHHHH SGLVPRGSH MSKVSFKITL TSDPRLPYKV LSVPESTPFT AVLKFAAEFF KVPAATSAIL TNDGIGINPA QTAGNVFLKH GSELRIIPRD RVG [?/description\\_after\\_attributes?](#)

## Usage

Boster's products are furnished for LABORATORY RESEARCH USE ONLY. The product may not be used as drugs, agricultural or pesticidal products, food additives or household chemicals.
