| Product Name | Human DuSP22 Recombinant Protein                                                                                                   |
| Description  | Human DuSP22 Recombinant Protein expressed in E. coli with His-tag. Sequence domain: 1-184aa. Application(s): SDS-PAGE, Denatured. |
| Size         | Starting from 20ug                                                                                                                 |
| Tag          | His-Tag                                                                                                                            |
| Form         | Liquid                                                                                                                             |
| Source       | E. coli                                                                                                                            |
| Formulation  | 20mM Tris-HCl buffer (pH 8.0) containing 0.4M urea, 10% glycerol                                                                   |

### Concentration

0.5mg/ml (determined by Bradford assay)

### Storage

Can be stored at 2°C to 8°C for 1 week. For long-term storage, aliquot and store at -20°C to -80°C. Avoid repeated freeze-thaw cycles.

### Purity

> 85% by SDS-PAGE

### Amino Acid Sequence
