

VEGI (4-3H8B)

Type	Size	Catalog number
unconjugated	100µg	101201

Antigen:	Vascular endothelial cell growth inhibitor (VEGI)
Immunogen:	Recombinant VEGI isoforms
Host/Isotype:	Mouse IgG1, κ
Reactivity:	Human
Purity:	>90% pure tested via polyacrylamide gel electrophoresis (PAGE)
Formulation:	PBS, pH7.2, 0.09%NaN ₃
Storage:	Store at 2-8°C for 12 months
Applications:	WB, ICC, IP

Antigen Information

Vascular endothelial cell growth inhibitor (VEGI), a member of the tumor necrosis factor (TNF) family, is an endothelial cell-specific inhibitor of angiogenesis. Overexpression of a secretable VEGI fusion protein by cancer cells resulted in abrogation of xenograft tumor progression. 4-3H8B antibody is a mouse monoclonal IgG1 raised against a recombinant VEGI isoform which shares a C-terminal 151-residue segment with previously reported VEGI with 174 residues.
