

## Rat Anti-Mouse Lambda Clone JC5-1 HRP mAb

|                                 |   |                  |        |
|---------------------------------|---|------------------|--------|
| <b>Catalog No.</b>              | CMM032  | <b>Quantity:</b> | 1.0 mL |
| <b>Description:</b>             | Rat Anti-Mouse Lambda Clone JC5-1 HRP mAb   |                  |        |
| <b>Specificity:</b>             | Mouse lambda  |                  |        |
| <b>Isotype:</b>                 | Rat IgG <sub>2b</sub> K   |                  |        |
| <b>Clone:</b>                   | JC5-1   |                  |        |
| <b>Conjugate:</b>               | HRP (Horseradish Peroxidase)  |                  |        |
| <b>Formulation:</b>             | Liquid volume of 1.0 mL supplied in a stock solution in 50% glycerol/50% PBS, pH 7.4. No preservative added.  |                  |        |
| <b>Isotype Control</b>          | Rat IgG <sub>2b</sub> -HRP  |                  |        |
| <b>Applications:</b>            | Applications for relevant formats of this clone include ELISA, Immunohistochemistry, and Western Blotting.  |                  |        |
| <b>Application Notes:</b>       | Recommended working dilution for ELISA is 1:4,000-1:8,000. Since applications vary, you should determine the optimum working dilution for the product that is appropriate for your specific need. |                  |        |
| <b>Storage &amp; Stability:</b> | Store at 2-8°C or long-term at -20°C.   |                  |        |

ELISA plate was coated with purified mouse IgGκ, IgMκ, IgAκ, IgGλ, IgMλ, and IgAλ. Immunoglobulins were detected with serially diluted Rat Anti-Mouse Lambda-HRP.

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
