Mouse Anti-Human Plasminogen Clone 9F9-C4 mAb

Catalog No.	CSI20219A CSI20219B	Quantity:	1.0 mg 10 mg
Description:	Mouse Anti-Human Plasminogen Clone 9F9-C4 mAb		
Concentration:	10.0 mg/ml		
Purity:	IgG fraction		
Specificity:	Detects plasminogen and plasmin under non-reducing conditions. Epitope localized to Kringle 1 on the heavy chain.		
Host:	Mouse		
Immunogen:	Purified full length native human plasminogen		
Isotype:	IgG1k		
Clone:	9F9-C4		
Formulation:	Frozen liquid in 0.05 M Sodium Phosphate Buffer + 0.1 M NaCl + 1 mM EDTA, pH 6.6.		
Purification:	Purified by immobilized Protein G.		
Applications:	ELISA Capture Antibody, Western Blot		
Storage & Stability:	Store at -80°C. Stable for 5 years from delivery. Avoid repeated freeze-thaw cycles.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
