

## Rabbit Anti-Mouse PAI-1 IgG fraction HRP pAb

|                                 |   |                  |                 |
|---------------------------------|---|------------------|-----------------|
| <b>Catalog No.</b>              | CSI20498A<br>CSI20498B  | <b>Quantity:</b> | 1.0 mg<br>10 mg |
| <b>Description:</b>             | Horseradish peroxidase labeled polyclonal antibody (host rabbit). IgG fraction purified by immobilized Protein A.   |                  |                 |
| <b>Concentration:</b>           | 2.0 mg/ml   |                  |                 |
| <b>Specificity:</b>             | Mouse   |                  |                 |
| <b>Host:</b>                    | Rabbit  |                  |                 |
| <b>Immunogen:</b>               | Recombinant full length wild-type mouse protein (Non-glycosylated).   |                  |                 |
| <b>Isotype:</b>                 | IgG   |                  |                 |
| <b>Conjugate:</b>               | HRP   |                  |                 |
| <b>Formulation:</b>             | Liquid in PBS, pH 7.4 + 1% BSA + 0.01% Thiomersal. Precaution: Thiomersal is a poisonous and hazardous substance which should be handled by trained staff only. |                  |                 |
| <b>Purification:</b>            | IgG fraction purified by immobilized Protein A.   |                  |                 |
| <b>Cross-Reactivity:</b>        | Ms  |                  |                 |
| <b>Applications:</b>            | ELISA   |                  |                 |
| <b>Application Notes:</b>       | The optimal concentration should be determined by the user for each specific application.   |                  |                 |
| <b>Storage &amp; Stability:</b> | When stored at -80°C, product is stable for 5 years from date of delivery. <b>Avoid repeated freeze-thaw cycles.</b>  |                  |                 |
