

Anti-Human CD45RB Purified Immunoglobulin, Clone MEM-143, Monoclonal Antibody

Catalog No: MON2085

Size: 100 µg

Clone: MEM-143

Specificity: The antibody reacts with a protein determinant of CD45RB and is therefore not neuraminidase sensitive like most other anti-CD45RB antibodies (including standard antibody MEM-55). The reactivity of the antibody MEM-143 can be blocked by a peptide including amino acids 79-88.

Immunogen: Human peripheral blood lymphocytes.

Immunoglobulin

Type: Mouse IgG1

Use: This antibody can be used for flow cytometry.

Instructions

for Use: The staining pattern of the MEM-143 show prominent differences from other anti-CD45RB reagents including standard antibody MEM-55, mostly as a result of the recognition of differences in glycosylation.

Presentation: 100 µg in solution (PBS containing 15 mM sodium azide, pH 7.4).

Concentration: 1 mg/ml

Purity: >95% (by SDS-PAGE)

Storage: Store at +4°C until expiry date. For long-term storage aliquot and store at -20°C. Avoid freeze/thaw cycles.

References: Unpublished.

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
