

NSP-C, clone RNL-4 Monoclonal Antibody

Catalog No.: MON2097

Quantity: 1 ml

Specificity

Recognizing epitopes in the neuro-endocrine specific proteins (NSP) C. This antibody was raised against the amino-terminal amino acid sequence of NSP-C. Crossreactivity is observed with human and rat.

Immunoglobulin type

Mouse IgG₁

Use

Frozen sections, paraffin embedded sections, cytological material and Western Blotting.

Working dilutions: 1:10-1:25.

Presentation

1 ml culture supernatant, with 0.1% Sodium azide.
