

IgA

Mouse Anti-Human IgA Clone BFG-267 HRP mAb

Catalog No.	MON5004P	Quantity:	1 ml
Description:	Mouse Anti-Human IgA Clone BFG-267 HRP monoclonal antibody		
Concentration:	1.2 mg/ml		
Specificity:	Human IgA as determined by ELISA on purified human immunoglobulin isotypes		
Host:	Mouse		
Immunogen:	Purified alpha-chain (Fc) of human IgA		
Isotype:	IgG1		
Clone:	BFG-267		
Conjugate:	HRP		
Formulation:	Liquid in 50% glycerol + 0.15 M NaCl + 0.01 M Na-phosphate, pH 7.5		
Purification:	Gel filtration and ion exchange chromatography to remove peroxidase and unlabeled antibodies		
Cross-Reactivity:	No cross-reactivity with albumin fractions of human serum, purified human IgG and IgM, or albumin fractions of other species.		
Applications:	ELISA RIA Dot Blot Immunohistochemistry (Frozen)		
Application Notes:	For use as a secondary antibody in ELISA, use a working dilution of 1:1,000. For use as a secondary antibody in Dot Blot, use a working dilution of 1:100. For use in Immunohistochemistry (Frozen), use a working dilution of 1:40. The optimal concentration should be determined by the user for each specific application.		
Storage & Stability:	Store at 2-4°C. Expiration date: 03/2010. Avoid repeated freeze-thaw cycles.		
Also Available:	MON5004: Mouse Anti-Human IgA Clone BFG-267 mAb MON5004F: Mouse Anti-Human IgA Clone BFG-267 FITC mAb		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
