

Human Albumin, clone A1-01 Monoclonal Antibody

Catalog No.: MON5024

Quantity: 1 ml

Specificity

The antibody is highly specific for human albumin. No cross-reactions were found with other serum proteins. The antibody does not cross-react with bovine, porcine rabbit and murine serum albumin.

Immunoglobulin type

Murine IgG₁

Use

The antibody can be used for detection of human albumin (RIA) and for affinity purification of albumin. Suitable for ELISA on Microalbuminuria detection.

Presentation

1 ml diluted ascites in PBS with approximately 0.5 mg antibody/ml and 0.1% sodium azide.

Literature
