

Rat Anti-Rat Laminin Clone MEC5 mAb

Catalog No.	MON6083	Quantity:	1 ml
Description:	This rat monoclonal antibody is directed against the P1 fragment of laminin. They are species-independent as it has been shown that they bind to laminin of rat, mouse and humans. MEC5 is an auto-antibody derived from DZB rats that had developed membranous glomerulopathy upon exposure to mercuric chloride,		
Host:	Rat		
Isotype:	IgG1		
Formulation:	MEC5 is supplied as 1 ml of hybridoma culture supernatant, with 0.05% sodium azide added as a preservative. Precaution: Sodium azide is a poisonous and hazardous substance which should be handled by trained staff only.		
Applications:	MEC5 monoclonal antibodies are suitable for immuno-histochemical detection of laminin in extracellular matrix or basement membranes in freshly frozen tissue sections of rat, mouse or humans. It is recommended to pretreat the sections with pepsin.		
Storage & Stability:	Store for two months at 4°C, 1 year at -20°C. Avoid repeated freeze-thaw cycles.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
