

Mouse Anti-Human Erythrocytes Clone SFL23.6 mAb

Catalog No.	MON7050	Quantity:	100 µg
Description:	Mouse Anti-Human Erythrocytes Clone SFL23.6 mAb is directed against an erythroid cell surface antigen. It shows a well defined reactivity with cells of the erythroid lineage at all stages of maturation in the peripheral blood, bone marrow, and fetal liver. Nonerythroid lineages are negative by flow cytometry. Although the exact identity of the antigen has yet to be determined, it has been shown to be distinct from Glycophorin A.
