

Rabbit Anti-Mouse RANKL/TNFSF11 Biotin Affinity Purified pAb

Catalog No.	PA1402BT	Quantity:	50 µg
Alternate Names:	Tumor Necrosis Factor ligand Superfamily member 11, CD254, ODF, OPGL, RANK ligand, SOFA, TRANCE		
Description:	Rabbit Anti-mouse sRANKL/TNFSF11 Biotin Affinity Purified polyclonal antibody		
Specificity:	Mouse RANKL		
Host:	Rabbit		
Immunogen:	Recombinant mouse RANKL		
Conjugate:	Biotin		
Formulation:	Lyophilized from sterile-filtered PBS solution		
Purification:	Biospecific affinity chromatography		
Reconstitution:	Centrifuge vial prior to opening. Add sterile PBS solution containing 0.1% BSA to the vial to fully solubilize the antibody to a concentration of 50 µg/ml.		
Applications:	Western Blot ELISA		
Application Notes:	To detect mouse RANKL by direct ELISA (using 100 µl/well antibody solution) this antibody can be used at a concentration of 0.15-0.30 mg/ml. Used in conjunction with compatible secondary reagents, allows the detection of at least 0.2 ng/well of recombinant mouse RANKL. The optimal concentration should be determined by the user for each specific application.		
Storage & Stability:	Lyophilized antibody is stable for 6 months at -20°C. Reconstituted antibody is stable for 1 month at 2-4°C or for 6 months in working aliquots at -20°C. Avoid repeated freeze-thaw cycles.		

NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
