

## IGFBP-rP1, antibody for Immunohistochemistry

<b>Catalog No:</b>	PAAD1
<b>Size:</b>	20 µg
<b>Source:</b>	Purified IgG from rabbit antiserum.
<b>Immunogen:</b>	Epitope of human IGFBP-rP1.
<b>State and Appearance:</b>	Lyophilized powder.
<b>Specificity:</b>	As determined by EIA: Antibody does not recognize hIGFBPs 1, 2,3,4,5 or 6.
<b>Storage/Stability:</b>	At least 2 years at 2 - 4°C (lyophilized). After reconstitution store at -20°C. Avoid freeze-thaw cycles.
<b>Reconstitution:</b>	Dissolve in 400 µl sterile water (a 1/20 dilution). Dilute in a buffer suitable for the desired application.
<b>Application and Titre:</b>	Recognizes IGFBP-rP1 in frozen and paraffin embedded human and rat tissue. Enzyme immunoassay 1/1,000 IHC fetal rat tissue 1/500
<b>Detection:</b>	<u>#3100: Immunohistochemical (IHC) Detection of IGFBPs In Paraffin Sections Of Rat Embryonic Tissues Using Extravidin-Cy3 Staining</u>

**NOT FOR HUMAN USE. FOR RESEARCH ONLY. NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.**
