

IGF2

Rabbit anti-Human IGF-IIE (aa 89-101) pAb

Catalog No. PAAY1 Quantity: 100 µl

Alternate Names: Insulin-like Growth Factor-IIE

Description: Rabbit Anti-human IGF-IIE (aa 89-101) polyclonal antibody

Gene ID: 3481

As determined by Western blotting, the antibody recognizes the IGF-II precursor protein Specificity:

but does not cross-react with mature human IGF-II.

Host: Rabbit

Synthetic peptide corresponding to amino acids 89-101 of human IGF-IIE precursor Immunogen:

protein.

Formulation: Lyophilized powder

Reconstitution: Centrifuge vial prior to opening. Dissolve in 500 µl sterile water (a 1/5 dilution). Dilute

in a buffer suitable for the desired application

No cross reaction with mature human IGF-II **Cross-Reactivity:**

Applications: Western Blotting: 1:4,000

Enzyme Immunoassay: 1:5,000

The optimal concentration should be determined by the user for each specific application.

Storage & Stability: Lyophilized antibody is stable for at least 2 years at 2-4°C. After reconstitution, aliquot

and store at -20°C to -80°C. Avoid repeated freeze-thaw cycles.

NOT FOR HUMAN USE, FOR RESEARCH ONLY, NOT FOR DIAGNOSTIC OR THERAPEUTIC USE.
