

## Anti-Mouse NC1 of Type IV Collagen Antibody, Clone CB243, Biotinylated

Catalog # 7059

*For Research Use Only - Not Human or Therapeutic Use*

DESCRIPTION:	Mouse anti-mouse type IV collagen (NC1 fragment) IgG1 monoclonal antibody, clone CB243, biotinylated
APPLICATION:	Use for immunohistochemistry, immunoblotting, and ELISA
QUANTITY:	1 mg/ml x 0.1 ml
FORM:	Mouse monoclonal antibody, clone CB243, recognizing the NC1 fragment of type IV collagen. Dissolved in PBS, pH 7.2.
SOURCE:	Mouse
CROSS-REACTIVITY:	Cross-reacts to mouse and bovine NC1 fragment of type IV collagen
SUBTYPE:	Mouse IgG1
USAGE:	Dilute the antibody in buffer containing 2% heterologous serum, such as normal goat serum, to prevent non-specific reactions in tissue staining or immunoblotting.
STORAGE TEMPERATURE:	-20°C
STABILITY:	1 year
