## Anti-CLASP1 Antibody

| Catalog #                | Source                                                                                                                                            | Reactivity | Applications |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|------------|--------------|
| CPA4374                  | Rabbit                                                                                                                                            | H, M, R    | WB, IH       |
| <b>Description</b>       | Rabbit polyclonal antibody to CLASP1                                                                                                              |            |              |
| <b>Immunogen</b>         | KLH-conjugated synthetic peptide encompassing a sequence within the C-term region of human CLASP1. The exact sequence is proprietary.             |            |              |
| <b>Purification</b>      | The antibody was purified by immunogen affinity chromatography.                                                                                   |            |              |
| <b>Specificity</b>       | Recognizes endogenous levels of CLASP1 protein.                                                                                                   |            |              |
| <b>Clonality</b>         | Polyclonal                                                                                                                                        |            |              |
| <b>Form</b>              | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                                         |            |              |
| <b>Dilution</b>          | WB (1/500 - 1/1000), IH (1/100 - 1/200)                                                                                                           |            |              |
| <b>Gene Symbol</b>       | CLASP1                                                                                                                                            |            |              |
| <b>Alternative Names</b> | KIAA0622; MAST1; CLIP-associating protein 1; Cytoplasmic linker-associated protein 1; Multiple asters homolog 1; Protein Orbit homolog 1; hOrbit1 |            |              |
| <b>Entrez Gene</b>       | 23332 (Human); 76707 (Mouse)                                                                                                                      |            |              |
| <b>SwissProt</b>         | Q7Z460 (Human); Q80TV8 (Mouse)                                                                                                                    |            |              |
| <b>Storage/Stability</b> | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                  |            |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish

## Product Data Sheet

Western blot analysis of CLASP1 expression in SHSY5Y (A), NIH3T3 (B) whole cell lysates.

Immunohistochemical analysis of CLASP1 staining in human breast cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
