

## Anti-Neutral Ceramidase Antibody

| Catalog #                | Source                                                                                                                                                     | Reactivity | Applications |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|--------------|
| CQA1709                  | Rabbit                                                                                                                                                     | H, M, R    | WB           |
| <b>Description</b>       | Rabbit polyclonal antibody to Neutral Ceramidase                                                                                                           |            |              |
| <b>Immunogen</b>         | Recombinant full length protein of human Neutral Ceramidase                                                                                                |            |              |
| <b>Purification</b>      | The antibody was purified by immunogen affinity chromatography.                                                                                            |            |              |
| <b>Specificity</b>       | Recognizes endogenous levels of Neutral Ceramidase protein.                                                                                                |            |              |
| <b>Clonality</b>         | Polyclonal                                                                                                                                                 |            |              |
| <b>Conjugation</b>       |                                                                                                                                                            |            |              |
| <b>Form</b>              | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                                                  |            |              |
| <b>Dilution</b>          | WB (1/500 - 1/2000)                                                                                                                                        |            |              |
| <b>Gene Symbol</b>       | ASAH2                                                                                                                                                      |            |              |
| <b>Alternative Names</b> | HNAC1; Neutral ceramidase; N-CDase; NCDase; Acylsphingosine deacylase 2; BCDase; LCDase; hCD; N-acylsphingosine amidohydrolase 2; Non-lysosomal ceramidase |            |              |
| <b>Entrez Gene</b>       | 56624 (Human); 54447 (Mouse); 114104 (Rat)                                                                                                                 |            |              |
| <b>SwissProt</b>         | Q9NR71 (Human); Q9JHE3 (Mouse); Q91XT9 (Rat)                                                                                                               |            |              |
| <b>Storage/Stability</b> | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                           |            |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish

## Product Data Sheet

Western blot analysis of Neutral Ceramidase expression in mouse kidney (A), mouse heart (B) whole cell lysates.

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
