## Anti-UGT1A1 Antibody

| Catalog #                | Source                                                                                                                                                                                                        | Reactivity | Applications |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------|--------------|
| CQA2721                  | Rabbit                                                                                                                                                                                                        | H, M, R    | WB           |
| <b>Description</b>       | Rabbit polyclonal antibody to UGT1A1                                                                                                                                                                          |            |              |
| <b>Immunogen</b>         | Recombinant full length protein of human UGT1A1                                                                                                                                                               |            |              |
| <b>Purification</b>      | The antibody was purified by immunogen affinity chromatography.                                                                                                                                               |            |              |
| <b>Specificity</b>       | Recognizes endogenous levels of UGT1A1 protein.                                                                                                                                                               |            |              |
| <b>Clonality</b>         | Polyclonal                                                                                                                                                                                                    |            |              |
| <b>Conjugation</b>       |                                                                                                                                                                                                               |            |              |
| <b>Form</b>              | Liquid in 0.42% Potassium phosphate, 0.87% Sodium chloride, pH 7.3, 30% glycerol, and 0.01% sodium azide.                                                                                                     |            |              |
| <b>Dilution</b>          | WB (1/500 - 1/2000)                                                                                                                                                                                           |            |              |
| <b>Gene Symbol</b>       | UGT1A1                                                                                                                                                                                                        |            |              |
| <b>Alternative Names</b> | GNT1; UGT1; UDP-glucuronosyltransferase 1-1; UDPGT 1-1; UGT1*1; UGT1-01; UGT1.1; Bilirubin-specific UDPGT isozyme 1; hUG-BR1; UDP-glucuronosyltransferase 1-A; UGT-1A; UGT1A; UDP-glucuronosyltransferase 1A1 |            |              |
| <b>Entrez Gene</b>       | 54658 (Human); 394436 (Mouse); 24861 (Rat)                                                                                                                                                                    |            |              |
| <b>SwissProt</b>         | P22309 (Human); Q63886 (Mouse); Q64550 (Rat)                                                                                                                                                                  |            |              |
| <b>Storage/Stability</b> | Shipped at 4°C. Upon delivery aliquot and store at -20°C for one year. Avoid freeze/thaw cycles.                                                                                                              |            |              |

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish

## Product Data Sheet

Western blot analysis of UGT1A1 expression in HepG2 (A) whole cell lysates.

**Application key:** E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC- Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference

**Species reactivity key:** H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb- Rabbit, S- Sheep, Z- Zebrafish
