

## Recombinant Zebrafish tnfa Protein

**Cat. No.** tnfa-4382Z    **Lot. No.** (See product label)

### SPECIFICATION

|                         |                                                                                                                                                                                  |
|-------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Product Overview</b> | Recombinant Zebrafish tnfa Protein (148aa) was expressed in yeast.                                                                                                               |
| <b>Species</b>          | Zebrafish                                                                                                                                                                        |
| <b>Source</b>           | Yeast                                                                                                                                                                            |
| <b>ProteinLength</b>    | 148aa                                                                                                                                                                            |
| <b>Form</b>             | Lyophilized                                                                                                                                                                      |
| <b>Molecular Mass</b>   | 16.5 kDa                                                                                                                                                                         |
| <b>AA sequence</b>      | AAIHLTGGYN SESKTLDW RD DQDQAFSSGG LKLVNREIII PDDGIYFVYS<br>QVSLHISCTS ELTEEQVLMS HAVMRFSESY GGKKPLFS AI RSICTQEPES<br>ENLWYNTIYL GAAFHLREGD RLGTDTTTAL LPMVENDNGK TFFGVFGL (148) |
| <b>Purity</b>           | >95% as visualized by SDS-PAGE analysis.                                                                                                                                         |
| <b>Applications</b>     | This endotoxin-free recombinant protein can be used in cell culture, ELISA Standard, and as a Western Blot Control.                                                              |
| <b>Storage</b>          | Store at -20 centigrade.                                                                                                                                                         |
