

## C3&C5 removed Human Complement Serum

Cat. No.: CTS-054

This product is for research use only and is not intended for diagnostic use.

### PRODUCT INFORMATION

**Product Overview** This product is a C3 and C5 removed human complement serum via immunoaffinity chromatography. It can be used for testing the absence of C3 and C5 by functional assays for classical pathway and alternative pathway activities,. It can be reconstituted by addition of purified C3 and C5 protein. This product is for research use only and is not intended for therapeutic or diagnostic applications.

### SPECIFICATIONS

<b>Specie Reactivity</b>	Human
<b>Type</b>	Serum
<b>Application</b>	Functional Assays
<b>Product Form</b>	Frozen liquid
<b>Storage</b>	Store at -80°C. Avoid repeated freeze/thaw cycles.
<b>Complement Activity</b>	Depleted Special Protein
