Product Information

Magic™ Membrane Protein Human OR52E5 (Olfactory receptor family 52 subfamily E member 5) Expressed *in vitro E.coli* expression system, Full Length

Cat. No.: **MPX3177K**
This product is for research use only and is not intended for diagnostic use.

This product is a Human OR52E5 membrane protein expressed *in vitro E.coli* expression system. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Specifications

Host Species
Human

Target Protein
OR52E5

Product Description

Expression Systems
in vitro E.coli expression system

Tag
10xHis tag at the N-terminus

Protein Format
Soluble

Form

Liquid or Lyophilized powder

Buffer

Tris/PBS-based buffer, 6% Trehalose, pH 8.0

Storage

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles.

Target

Target Protein

OR52E5

Full Name

Olfactory receptor family 52 subfamily E member 5

Introduction

Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms.

Alternative Names

OR52E5; OR11-56; olfactory receptor 52E5; olfactory receptor OR11-56 pseudogene; Olfactory receptor family 52 subfamily E member 5

Gene ID

390082

UniProt ID

Q8NH55
