

GPR151 Polyclonal Antibody

Cat. No.: NHP-AB357

This product is for research use only and is not intended for diagnostic use.

This product is an antibody that was generated by immunizing rabbit against a peptide located in the 3rd extracellular domain of GPR151 (Human). It is used only in *in vitro* assays.

Detailed Product Description

Introduction	GPR151 is an orphan receptor.
Conjugate	None
Applications	IHC

Technical Specifications

Host Species	Rabbit
Species Reactivity	Gorilla; Human; Monkey
Immunogen	A peptide located in the 3rd extracellular domain of GPR151 (Human)

Product Property

Purification	Immunoaffinity Chromatography
Format	Liquid
Concentration	1 mg/mL
Buffer	PBS, 0.1% sodium azide.
Storage	Short term: 4°C. Long term: Store at -20°C.

Target Information

Clonality	Polyclonal
Alternative Names	AXOR40; G-protein coupled receptor 151; G-protein coupled receptor PGR7; Galanin

receptor 4; Galanin-receptor-like protein; GalRL; GPCR-2037; HGPRBMY7; putative G-protein coupled receptor

Entrez Gene ID

134391
