

Rhesus Monkey Liver

Cat. No.: NHP-TI023

This product is for research use only and is not intended for diagnostic use.

yes This product provided by Creative Biolabs is isolated from Rhesus monkeys' liver. The sample is negative for Herpes-B Virus, as well as SRV, SIV, and STLV-1, and can be used for a variety of *in vitro* tests and assays such as PCR, Western blot, immunoprecipitation, immunofluorescent flow cytometry.

Detailed Product Description

Source Healthy rhesus monkey

Applications Given their robust resemblances to humans across physiological, behavioral, immunological, and genetic aspects, non-human primates serve as crucial models in a broad range of biomedical research, especially in bridging translational research from small animal models to humans. Creative Biolabs offers both standard formats and personalized non-human primate tissue preparations, catering to diverse *in vitro* testing applications.

System Digestive System

Organ/Tissue Liver

Shipping Dry ice

Technical Specifications

Preservation Methods Snap frozen

Quality Assurance Tissue blocks are prepared by histologists with years of experience to be sure of excellent morphology and high quality.

Packaging Securely packaged to maintain the tissue quality during shipping.
