

Rhesus Monkey Small Intestine

Cat. No.: NHP-TI038

This product is for research use only and is not intended for diagnostic use.

yes This product provided by Creative Biolabs is isolated from Rhesus monkeys' small intestine. The sample is negative for Herpes-B Virus, as well as SRV, SIV, and STLV-1, and can be used for a variety of *in vitro* tests and assays such as PCR, Western blot, immunoprecipitation, immunofluorescent flow cytometry.

Detailed Product Description

Source	Healthy rhesus monkey
Applications	Given their robust resemblances to humans across physiological, behavioral, immunological, and genetic aspects, non-human primates serve as crucial models in a broad range of biomedical research, especially in bridging translational research from small animal models to humans. Creative Biolabs offers both standard formats and personalized non-human primate tissue preparations, catering to diverse <i>in vitro</i> testing applications.
System	Digestive System
Organ/Tissue	Small intestine
Shipping	Dry ice

Technical Specifications

Preservation Methods	Snap frozen
Quality Assurance	Tissue blocks are prepared by histologists with years of experience to be sure of excellent morphology and high quality.
Packaging	Securely packaged to maintain the tissue quality during shipping.
