

## Recombinant DENV Antigen ( Strain TVP-360)(VAng-Wyb8588)

### PRODUCT INFORMATION

#### Product Overview

Dengue virus Type 4 ( Strain TVP-360) Antigen, recombinant protein from Vero Cells, 0.11 mg/mL.

### SPECIFICATIONS

|              |   |
|--------------|---|
| Source       | Vero Cells.                               |
| Target       | Dengue Virus                              |
| Type         | Viral Antigens                            |
| Applications | ELISA and Lateral Flow.                   |
| Formulation  | Potassium Phosphate Based Buffer, pH 7.2. |
| Storage      | Store at -70°C.                           |

### ANTIGEN INFORMATION

|                   |   |
|-------------------|---|
| Introduction      | Dengue virus (DENV) is the cause of dengue fever. It is a mosquito-borne single positive-stranded RNA virus of the family <i>Flaviviridae</i> ; genus <i>Flavivirus</i> . Five serotypes of the virus have been found, all of which can cause the full spectrum of disease. |
| Alternative Names | Dengue virus; DENV; Flaviviridae; Flavivirus  |
