

# Mouse Anti-Kitasamycin monoclonal antibody, clone KSM (CABT-L3063)

This product is for research use only and is not intended for diagnostic use.

## PRODUCT INFORMATION

Immunogen	Kitasamycin with carrier protein.
Isotype	IgG
Source/Host	Mouse
Species Reactivity	N/A
Clone	KSM
Purification	Purified from mouse ascites.
Conjugate	Unconjugated
Applications	ELISA, LFIA
Format	Liquid
Concentration	Lot specific
Size	1 mg
Buffer	PBS
Preservative	None
Storage	Long time storage is recommended at -20°C.
Ship	Wet ice

## BACKGROUND

**Introduction** Kitasamycin (INN) is a macrolide antibiotic. It is produced by *Streptomyces kitasatoensis*. The drug has antimicrobial activity against a wide spectrum of pathogens.
