

Anti-APP polyclonal antibody (CPBT-66769RH)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Product Overview	This product recognises all forms of human amyloid precursor protein. The antibody does not recognise bovine APP and is therefore of value in detecting human APP in cultures containing bovine serum. APP exists in a number of isoforms. APP(695) is predominant in neuronal tissue, whilst APP(751) dominates elsewhere.
Specificity	AMYLOID PRECURSOR PROTEIN
Isotype	IgG
Source/Host	Rabbit
Species Reactivity	Human, Monkey, Mouse
Conjugate	Unconjugated
Applications	IP; WB
Format	Serum - liquid
Size	100 µl
Preservative	0.02% Sodium Azide
Storage	in frost-free freezers is not recommended. Avoid repeated freezing and thawing as this may denature the antibody. Should this product contain a precipitate we recommend microcentrifugation before use.
