

Ceftriaxone [BSA] (DAG-WT1050B)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Conjugate	BSA
Applications	LF, ELISA
Format	Liquid
Size	1 mg
Buffer	PBS buffer
Preservative	None
Storage	Store at -20°C

BACKGROUND

Introduction	Ceftriaxone, sold under the brand name Rocephin, is a third-generation cephalosporin antibiotic used for the treatment of a number of bacterial infections. These include middle ear infections, endocarditis, meningitis, pneumonia, bone and joint infections, intra-abdominal infections, skin infections, urinary tract infections, gonorrhea, and pelvic inflammatory disease. It is also sometimes used before surgery and following a bite wound to try to prevent infection. Ceftriaxone can be given by injection into a vein or into a muscle.
Keywords	Ceftriaxone; Cephalosporins; β -lactam antibiotics
