

Flumioxazin [BSA] (DAG-WT1876B)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Conjugate	BSA
Applications	ELISA, LFIA,
Format	Liquid
Size	1 mg
Buffer	10mM PBS, pH 7.4
Preservative	None
Storage	Store at -20°C
Ship	Wet ice

BACKGROUND

Introduction	Flumioxazin is an N-phenylphthalimide herbicide used to control selected grass and broadleaf weeds. Flumioxazin is a light-dependent peroxidizing herbicide (LDPH), which acts by blocking heme and chlorophyll biosynthesis resulting in the accumulation of photo-toxic porphyrins.
Keywords	Flumioxazin; N-phenylphthalimide; Herbicide
