

Zoxamide [BSA] (DAG-WT1880B)

This product is for research use only and is not intended for diagnostic use.

PRODUCT INFORMATION

Conjugate	BSA
Applications	ELISA, LFIA,
Format	Liquid
Size	1 mg
Buffer	10mM PBS, pH 7.4
Preservative	None
Storage	Store at -20°C
Ship	Wet ice

BACKGROUND

Introduction	Zoxamine is a fungicide used for the control of various fungal inflections including blight in potatoes and tomatoes. It has a rainfast preventative action with residual properties and acts by inhibiting nuclear division.
Keywords	Zoxamine; Fungicide
